JOB OPPORTUNITY

OFFICE OF TECHNOLOGY SERVICES
DB2 Support Unit/Mainframe Services Branch/Engineering Division
Systems Software Specialist I (Technical) / $5,064 - $6,465
May recruit at Associate Systems Software Specialist (Technical) level / $4,611- $5,882

When applying for a Job Opening, you must be sure to submit one **state application per RPA #.** You **must** indicate the RPA # you are applying for on your application; otherwise, your application will not be processed.

The Office of Technology Services (OTech) has an opening for a permanent, full-time Systems Software Specialist I (Technical) position within the Engineering Division in the mainframe DB2 Support Unit. The position will report directly to the Systems Software Specialist III (Supervisory) of the DB2 Support Unit. Under the general supervision of the Systems Software Specialist III (Supervisory), the Systems Software Specialist I (Technical) will provide advanced specialist level support for OTech's DB2 Data Sharing Subsystems and Non-Data Sharing Environments. This position is located at the Gold Camp Campus in Rancho Cordova with Free Parking.

Essential Functions:
- Install, customize, and maintain complex DB2 Subsystems and related software in a z/OS Sysplex Environment.
- Create, configure, and customize DB2 in Data Sharing Environment.
- Assist Operations staff in the preparation of operational procedures, isolation and correction of software malfunctions and DB2 Subsystem restarts following Operating System, Hardware or Subsystem failures in a DB2 Data Sharing Environment.
- Isolate and resolve complex system resource problems affecting DB2 Subsystem client processing.
- Install software and maintenance using SMP/E Program.

Work Environment Requirements:
- May be required to carry a pager, blackberry, or cell phone during work hours and to respond to after-hours support calls.
- Periodic overtime may be required including off-shift, weekends, and holidays.
- Some travel required for training, meetings, or conferences.
- Must pass fingerprint background record check completed by the Department of Justice (DOJ) and Federal Bureau of Investigation (FBI).

Desirable Qualifications:
- Must maintain consistent, predictable attendance.
- Knowledge of DB2 System and Database Administration Tools software.
- Knowledge and experience with z/OS architecture, JCL, TSO, SMP/E, and IBM utilities and tools.
- Knowledge of z/OS Unix System Services (USS).
- Knowledge of DB2 system performance tuning and Structured Query Language (SQL) usage.
- Excellent writing and communication skills.

*Applications will be accepted only from individuals currently at the **Systems Software Specialist I (Technical)** or the **Associate Systems Software Specialist (Technical)** levels, or applicants who have transfer or list eligibility. Training and Development Assignments may be considered. Applications will be screened and only the most qualified will be scheduled for an interview. All appointments are subject to SROA/Surplus provisions.*

Final File Date: July 19, 2013
Interested applicants must submit a State application to:
